REQUEST FOR CERTIFICATE OF CORRECTION

Sir:

Applicants request that a Certificate of Correction be issued to correct two errors that appear in the above-referenced patent due to mistakes made on the part of the Office, namely, 1.) the Application Number should be **10/655,578** instead of 10/655,5784 as shown in section (21); and 2.) the Filing Date should be **September 4, 2003** and not June 4, 2004 as shown in Section (22.)

The facts regarding the Filing Date are as follows:

1. The application was filed on September 4, 2003 with the specification in Japanese. The return receipt postcard was received indicating the assigned Serial Number and the filing date of September 4, 2003. A copy of the postcard is attached.
2. A Notice of Missing Parts was finally mailed to the applicants on April 6, 2004, requesting the Declaration, an English translation of the Specification and a Statement of Accuracy regarding the translation. The Response to Missing Parts was filed in a timely manner on June 2, 2004, in which the Declaration, the English Translation with a Statement of Accuracy, as required in 37 CFR 1.52(d), and all fees required, including those set forth in 37 CFR 1.17(i), were submitted to

DEC 08 2005

the Office. A copy of the Response to Missing Parts (the Transmittal only) filed on June 2, 2004 is attached.

3. The updated Filing Receipt was mailed on July 15, 2004 and the Notice of Allowance was mailed on September 7, 2004. Both papers indicated the incorrect filing date of June 4, 2004.
4. On November 18, 2004, a Request for Corrected Notice of Allowance was filed to request the correction of the filing date to September 4, 2003. A copy of the Request is attached.
5. The Office mailed a Communication on September 23, 2005 indicating that the Office of Initial Patent Examination was to review the request. No official response was received as to the specifics of the filing date.
6. The Letters Patent issued on November 8, 2005 with the incorrect filing date. A telephone call to Steve Marcus of the Office of Patent Legal Administration was made on November 28, 2005. Mr. Marcus concurred that the applicants' response to the Missing Parts and the filing of the English Translation and Statement was proper and that the application should retain the original filing date of September 4, 2003. Mr. Marcus recommended the applicants file a certificate of correction to remedy this error by the Office.

It is the applicants' belief, as well as that of Mr. Steve Marcus of the Office of Patent Legal Administration, that the Office is in error and should correct the filing date to read September 4, 2003 on the Letters Patent. Applicants request that a Certificate of Correction be issued to show the correct **Application Number of 10/655,578** and the correct **Filing Date of September 4, 2003**.

However, in the event that it should be determined that the error is not the fault of the Office, the Commissioner is authorized to charge deposit account 18-2056 any fees associated with the issuance of the Certificate of Correction.

Respectfully submitted,

ROSSI, KIMMS & McDOWELL LLP

REQUEST FOR CORRECTED NOTICE OF ALLOWANCE

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Sir:

A corrected Notice of Allowance is hereby requested in view of an error which has occurred, specifically, the filing date is incorrect. Applicants filed the above-referenced application in the Japanese language on September 4, 2003 and were given that filing date. Subsequently, applicants filed a certified English translation of the application including the surcharge with the Response to Missing Parts dated June 2, 2004. The Patent Office issued another filing receipt and subsequently the Notice of Allowance both of which indicate the later filing date. After checking the rules, applicants maintain that the original date of filing should remain as the official filing date. Correction of the Notice of Allowance is respectfully

requested. For the convenience of the Patent and Trademark Office, attached is a photocopy of the Notice of Allowance on which the error has been noted in red.

Respectfully submitted,
